

Raytheon Automotive Courses

Raytheon specializes in designing, developing, implementing and sustaining learning solutions for the global automotive market. They have delivered millions of hours of training to the world's most successful organizations.

Web-Based Training

Goodyear has teamed with Raytheon to provide web-based training for company-owned retail outlets and aligned dealers in North America.

This Raytheon content consists of:

- Structured curriculum – approximately 140 technical and non-technical web-based titles
- All web-based titles provided in English and Spanish
- 116 Technical Web-based titles:
 - 31 Entry Level
 - 52 Base Level
 - 33 Mid Level
 - 25 additional Shop Operation web modules

These Web-based courses cover the following topic areas:

- Fundamentals
- Maintenance
- Engine Mechanical
- Engine Controls
- Brakes
- Steering & Suspension
- Electrical
- Transmission & Driveline
- HVAC
- Diesel
- Shop Operations

ASE Technical Test Preparation (TPP)

Raytheon also provides ASE Technician Test Preparation (TPP). This includes:

- ASE automotive service categories A1-A9, X1, L1, P2, C1 and G1 all available in English and Spanish
- Multiple testing modes with built-in task lists, associated learning content and glossaries.

*Visit the **Goodyear Learning Center** to browse all available titles!*
